

I kindly ask you to reject petition 04-160 tendered by the National Association of Broadcasters.

I use and enjoy XM Satellite Radio, including the local content. Due to the industry consolidation started under the Clinton Administration, I have grown tired of the "cookie-cutter" radio stations... so many stations sound exactly alike. I do not listen to broadcast AM/FM radio anymore because XM Radio so perfectly fits my needs.

Thank you,

Matt Gordon
